EDUCATION

Vellore Institute of Technology, Bhopal

2023 – 2027

B.Tech - Computer Science and Engineering - **CGPA - 8.9**

Bhopal, Madhya Pradesh

EXPERIENCE

Edusaint [↗](#) | Role - Software Developer Intern

Oct 2025

- Developed a multi-tenant school ERP System using Flask (Python), HTML templates, and Bootstrap CSS.
- Built role-based dashboards for students, teachers, and administrators, enabling seamless navigation and workflow.
- Designed and implemented the full MySQL database architecture, covering student data, faculty data, attendance, classes, and admin controls.
- Implemented secure authentication, routing, CRUD operations, and backend business logic across modules.
- Created responsive UI components, improving usability and accessibility across devices.

PROJECTS

Full stack library management system [↗](#) | [React](#), [Node.js](#), [Express.js](#), [Oracle](#)

Feb 2025

- Developed a full-stack library management system using React for the frontend, Node.js for the API, and an Oracle database backend.
- Implemented secure user authentication and bcrypt for password hashing to protect user credentials.
- Built a responsive React UI with components for user login, registration, and a dashboard to manage library book data.
- Designed an Oracle database schema and wrote SQL queries to handle all CRUD operations for books and users efficiently.

Indian Court Case Scraper Web App [↗](#) | [Python](#), [Flask](#), [SQLite](#), [BeautifulSoup4](#)

Sep 2025

- Developed a full-stack web application using Flask to scrape and aggregate real-time case data from 25+ High Courts and all District Courts via eCourts portals.
- Engineered a RESTful API with robust session management and CAPTCHA handling to securely fetch case status, next hearing dates, and judgment orders.
- Integrated SQLite database to persist search history and cache case results, optimizing performance by reducing redundant network requests.

WhatsApp Drive Automation using n8n [↗](#) | [n8n](#), [Twilio API](#), [Google Drive API](#), [Gemini AI](#) Aug 2025

- Designed an automated workflow using n8n to manage Google Drive files directly via WhatsApp, integrating Twilio for messaging and Google Drive API for storage operations.
- Implemented complex file management capabilities including uploading, moving, renaming, and deleting files, utilizing webhook-based architecture for real-time command processing.
- Integrated Gemini AI to generate intelligent summaries of folder contents, enabling users to retrieve context-aware insights without opening files manually.

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, SQL

Technologies/Frameworks: HTML5, CSS3, React, MongoDB, Express, N8N, Twilio

Developer Tools: VS Code, PyCharm, IntelliJ, Photoshop, Canva

CERTIFICATIONS

- NPTEL Cloud Computing
- GenAI - IBM
- Microsoft DP-900

EXTRACURRICULAR

- Tech Lead E-cell VIT Bhopal
- Won a Hackthon organised by firefox club VIT Bhopal
